

Clyde Hunt, the Memphis Depot's Remedial Program Manager, spoke with Veda Turner's science students at Booker T. Washington High School in May. Students learned about various cleanup projects at the Memphis Depot.

New in the Information Repositories

The Depot's Information Repositories are updated regularly with technical reports and documents related to the ongoing cleanup of Dunn Field and the Main Installation, including minutes from Restoration Advisory Board (RAB) and Base Realignment and Closure (BRAC) Cleanup Team (BCT) meetings.

Below is a list of documents that have been added to the IRs recently:

- Technical Memorandum SA.01—Data Collection Plan for Long-Term Operational Areas (LTOAs), Main Installation, Memphis Depot, June 5, 2001 CH2M Hill
- Finding of Suitability to Transfer #2 (Parcels 1.1, 1.2, 1.3, 1.4, 1.5, 1.6, 1.7, 1.8) For public review and comment, Memphis Depot Caretaker, May 2001.
- Location of MDRA and BRAC Parcels (map), May 2001
- Annual Operation and Maintenance Summary Report for Year 2000 Groundwater Interim Remedial Action, Dunn Field, Memphis Defense Depot, Tennessee, Mobile District Corps of Engineers and Jacobs Engineering Group. January 29, 2001.

A complete list of documents that have been added to the IRs since the cleanup program began is located on our website at <http://www.ddc.dla.mil/memphis/Docs/IR%20documents.htm>.

RAB Member Profile:

Betty Mills-Bates

Former Depot employee joins RAB

Betty Mills-Bates began attending Restoration Advisory Board (RAB) meetings in 1995, before the Depot officially closed in 1997. As a Depot employee for 24 years, Mills-Bates says she was looking for answers to questions she and other employees had about the environmental conditions at the Depot.

Mills-Bates is also actively involved on several committees that have been formed by other agencies to address the health questions of former employees. She speaks regularly with former Depot employees and assists in directing them to the proper agencies for information.

Mills-Bates said she decided to apply for a position on the RAB in 2000 in order to provide input on behalf of former Depot employees into the ongoing environmental cleanup program.

A mother of two adult children and recently married to Carnell Bates, Mills-Bates is an active member of Berean Missionary Baptist Church on Raines Road.

"I know that God is a just God, and that He will give me the strength to continue to work for the concerns of former employees of the Depot," said Mills-Bates. □
