

DDJC's Foreign Exchange Officer

By Doug Imberi, DDJC Public Affairs

LT Murray Hatt, Royal Canadian Navy (RCN), comes to Defense Distribution Depot San Joaquin, CA (DDJC) after completing the requirements for his professional designation as a Certified Management Accountant and French language coursework.

He is from Calgary in the province of Alberta and joined the Canadian Forces after finishing high school. He then attended Royal Roads Military College in Victoria, British Columbia, graduating with a Bachelor of Science degree in Physics and Physical Oceanography and logistics training as a finance officer.

In his most recent prior assignment, Hatt served as the budget manager for the Chief of the Maritime Staff at the

LT Murray Hatt, RCN.

National Defence Headquarters in Ottawa. He also served as the G-4/Comptroller at Canadian Forces Northern Area in Yellowknife, Northwest Territories.

After an initial orientation session, he will be assigned to the Bin Division.

Welcome Aboard, LT Hatt!

DDJC Marlene Jetton Earns National Award

By Doug Imberi, DDJC Public Affairs

Marlene Jetton

Defense Distribution Depot San Joaquin, CA (DDJC) Transportation Supervisor Marlene Jetton was honored by the National Defense Transportation Association (NDTA) with a Distinguished Service Award at the NDTA's 56th Annual Forum and Exposition in Greensboro, NC, in October.

NDTA officials are recognizing Jetton for her enthusiasm, leadership, and increases in membership of the San Joaquin Chapter of NDTA. During her term as President, membership

increased 20 percent to the current total of 62. Jetton has held several positions in the organization over the past seven years including government representative, second vice-president, and most recently President of the chapter during 2001. Jetton also was recognized for leading fund raising events that resulted in the chapter awarding four \$1,000 scholarships in 2001.

Under her leadership, the chapter focused on disaster preparedness, safety, and security in NDTA programs and contacts with various local and state officials.

DDJC Supporting Army Customers with Configured Loads

Defense Distribution Depot San Joaquin (DDJC) built ten configured loads (CL) containing MREs, bottled water and perimeter barrier components in July in support of Exercise Millennium Challenge 2002 at the National Training Center, Ft. Irwin, CA.

A specially designed Pallet Loading System Tactical Truck pulls a CL onto its chassis.
