LtCol David Fisher, DDC's Acting Chief of Staff, commended the personnel of the Logistics Support Division for their

continued exemplary service to their customers before he and Ms. Kuntz officially "christened" the new division.

In addition to the Ribbon Cutting, Colonel Philip Liller, USAF, DSCP, presented members of the Logistics Support Division the DSCP Achievers Award for their continued support to DSCP. This award is presented to those employees who have performed their duties in an exemplary manner and is presented to an individual or group to recognize their initiative, creativity and support of the agency mission. "DDC's Logistics Support Division has exceeded their normal job requirements and their significant contributions have resulted in the development and sustainment of innovative business practices and improved efficiencies for providing quality products and services in support of America's Armed Forces," said Liller.

The Logistics Support Division is a new division comprised of two teams, Transportation and Customer Support/Call Center Teams. These teams were formerly part of the Logistics Operations Division, Logistics Operations Directorate.

The alignment of the Transportation and Customer Support Teams into the Logistics Support Division provides enhanced customer service and synergy, resulting in more immediate and coordinated reactions to emergency situations, customer problems, and contingency planning.
